***Examiner's amendment***

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Daniel Chalker on 11/04/2009.

Applicant has also agreed to amend the claim 18 to comply with potential 101 rejection on 11/09/09

Please amend the claims as follows:

Please cancel claims 33-44 and 59-63.

Please replace claim 18 with the following:

**Claim 18:** A method for wagering comprising the machine implemented steps of:  
receiving a sales price from a current user;

assigning a multi-level wagering account having a play value initially equal to or slightly less than equal to the sales price to the current user wherein a portion of the play value may be used to purchase a play on one or more gaming machines;

distributing the entire sales price received from the current user to a specified number of previous users and an operator of the system in accordance with a payout formula,

which is not based on a play of any user, by increasing the play value of one or more multi-level wagering accounts of the specified previous users;

increasing the play value of the multi-level wagering account of the current user based on the sales price accepted from a specified number of subsequent users in accordance with the payout formula; and

decreasing the play value of the multi-level wagering account of the current user based on the plays purchased by the current user at the one or more gaming machines.

### ***Drawings***

A corrected drawing must be submitted as a replacement sheets to correct the unclear hand drawings in this application.

2. The following is an examiner's statement of reasons for allowance: Applicant's invention is to use multi-level marketing system into the wagering game where player can benefit from subsequent player's wager.

the prior art of record specifically Packes discloses players are awarded bonuses based on the results of the gaming session initiated after that player and encourages players to continue a given gaming session in that the longer the session continues, the more likely it is that other subsequent gaming sessions will be initiated, however Packes fails

to teach or suggest assigning a multi-level wagering account having a play value initially equal to or slightly less than equal to the sales price to the current user; and (b) distributing the entire sales price received from the current user to a specified number of previous users and an operator of the system in accordance with a payout formula, which is not based on a play of any user.
